Mr Keswick agreed to this addition; and probably the remains of a race mentioned the proposal on being put to the meeting was carried unanimously.

The meeting then terminated.

A DIRECT CABLE TO SINGAPORE. The Eastern Extension, Australasian and China Telegraph Co, Hongkong, 13th January, 1890.

The Hon. A. P. MacEwen, Hongkong. DEAR Sir, -Since my return to Hong. kong inst month, I have read your speech in the Legislative Council on the 4th December, and the discussion thereon relative to the proposed Cable to Singapore: " " " As the estimate of cost named by you (£100 per mile) is not in accordance with our experience, and as I gather that the public have not clearly noted the distinction, both in cost and in other respects between the first proposed Direct Cable to Singapore, and the subsequent proposal to carry the cable via Borneo, I now wish to set forth as clearly as possible a statement of the cost and other considerations involv-

ed by the two schemes. First of all, my directors would wish it to be distinctly understood that their terms for both plans have not been put forward on their own initiative, but have been given in response to enquiries addressed to them by the authorities and others interested in the establishment of a line of tolegraph between Singapore and Hongkong which should be purely under British control. In 1885 and again in 1888 enquiries were addressed to my Directors as to the terms upon which the Eastern Extension Telegraph Coy. would establish and maintain a

Direct Cable between Singapore and Hong-In reply, the Company stated that they were prepared to establish and maintain such a line for a yearly subsidy for 20 years of £15,0 0. The steamer distance between Uchgkong and Singapore is 1,450, knots to which must be added say 10% to allow for inequalities in the sea bed, detours to avoid. shoals, rocks &c. and for the necessary black

to enable the cable to be raised to the surface. for repairs. The state of the s The length of a direct cable may estimated therefore at 1,600 knots, and the cost at £250,030. As the existing lines are amply sufficient to carry a considerable increase of the present traffic, there was no prospect of revenue from the new cable. to the extent of one-third of an authorized and the yearly amount necessary to cover Note circulation, which we gladly do: Interest, working expenses maintenance and amortization was found to be £30,000 trying for years to get our Ordinance | f r a period of 20 years. In view howamended, and we are greatly indebted to ever, of the political and strategic advant-H. E. the Governor for assisting us towards ages of such a connection, which can only be established by means of a submarine cable, ass routs dependent on nerial lines is always subject to interference, and the messages That the following Ordinance, passed passing our always be tapped by a very by the Legislative Council on the 20th simple apparatus, the company was pre-November lest, and amented to by H. pared to bear half the cost, and would E the Governor on the 27th Wovems therefore accepts as mentioned above a subsidy of £15,000 per annum, to be apportione i among the Governments interested, as they themselves might arrange In 1889; the Government of British

This led to further enquiries as to the cost of such a line, touching en route at Libuan and Sarawak, and by un extension to Hongkong, providing the much desired passing through British Territory only Such a scheme would require 2,500 knots would accessarily be of a heavy and expensive type, costing in all about £420,000. To cover maintenance and amortizathe Company is prepared to bear one The Chairman said - Centlemen, you fourth, leaving the remaining three fourths have heard that the object of this meeting to be apportioned among the Communities is to decide what form a memorial to the interested, as they would be materially late Dr Stewart should take. An article on railways in China, for this meeting to bring forward any sug- scientific fact that the speed of signalling or about the 17th Jan. from his pen, is to appear in a forthcoming gestion that may be hereafter acted on by decreases inversely as the square of the length of the cable. That is, by doubling. from Bombay, left Singapore on the A few years ago Mr. Fung matried an Eng. Dr Chalmara, after expressing his ap. the length, the speed is reduced to one 10th Janus and may be expected here lish lady, who will accompany him on his preciation of the remarks made by the fourth. It is obvious therefore that fur chairman - an appreciation which he felt long distances a cable must be made whole

speed capacity is proportionately great, a result which is obtained by using a greater quantity of Copper and Gut a Percha, all of the best quality, and the cable must be of the very best manufacture.

also obvious that if cable is put down which works but slowly when perfect, any partial defect which may appear, and defects unfortunately do froquently appear, will render the cable almost or entirely Weeless. It is the refere nec asary to provide a type of cable which has a sufficient margin of efficiency to enable traffic to pass even when it is defective, until the repairing steamer is able to remove the fault. We are perfectly satisfied therefore, that in view of the requirements, and of the increased cost of material and manufacture, a suitable cable for either of the proposed routes cannot be obtained under the figure at which we have estimated them, indeed we be eve that the cost will prove to have been, if anything, underestimated. Our cable laid in 1883 between Hongkong and Shanghai is 965 knots in length the contract cost, owing to its special design and elaborate manufacture, was £212,000, which is about £22) knot, a sum considerably in excess

of the estimates above given. As regards an independent direct line to Singapore, the following figures may prove of interest :-

We estimate the cost as follows: --1,600 knots of cable . Repairing stonmor 30,000 Apparatus, Stores, Spare Cable, &c., &c.

Working expenses per annum Repairing steamer Total expenses The present local traffle between Singapore and Hongkong equals £9,000 per an-

As this is a subject of general interest, Paid-up Capital, I propose to forward a copy of this letter to the Local Press, and hope with you, as the matter has again been prominently brought forward, that in the light of the recent discussion some steps may now be found practicable to establish a connection which on political and strategic grounds is generally admitted to be so desirable.

Yours truly, WALTER JUDD, Manager in China Eastern Extension Telegraph Co

CORRESPONDENCE

ABSURD CONTENTION.

To the Editor of the 'CHINA MAIL.' Hongkong, 16th January, 1890. Sin, - The writer of your Leading Article last night is apparently one of a rather large class, who affect pure Anglo-Saxon and wish to eliminate the Latin element altogether from modern English, or relagate it to a respectful distance in the background. It is therefore somewhat amusing. to find in the article a phrase in Ciceronian style, an undeniable Latinism, 'What an abourd contention.'

Absurd contention.' the words in themselves are absurdly Latin; and to be followed by 'agglomeration'!! Prob pudor! Shades of Latimer and Wilberforce, of Arnold and Thring, turn in your graves as ye learn that your writings were charesterised by a pedantic and involved construction.

I am, Sir, your obedient servant, INCORRIGIBLE PEDANT.

LONDON'S SCANDAL. The American papers received by the London scandal. In some of them Prince Albert Victor's name is mentioned in connection with the affair, but the latest and scrious most authentic reports emphatically deny neration to Directors and Auditors, leaves | the statement that the heir to the British throne was at all mixed up in the matter. In one American paper there is a sensa-7 per cent. per annum, which will absorb | tional description of the discovery in Seattle of the man Hammond, who ran the house in Cleveland Street, but the story is rather doubtful. The following seem to be among the most reliable particulars :-

A 'Member of Parliament' telegraphs to

The solicitor whose prosecution begins there. shortly. Newton, was the legal adviser of the Colony. The Directors have invited Lord Arthur Somerset, and he is accused Mr D. R. Sassoon to fill the vacant seat, and of aiding and abetting in the flight of the session of the police, unless it has mysteriously disappeared with certain other papers which passed between police headquarters and the Treasury.

When Hammond found that the game was up he' demanded certain sums of money from his supporters to enable him to fly to America. It is alleged that Newton acted as go-between in the business. Hammond got his money and made himself scarce. It is very certain that Newton's explorer. client disappeared at about the same time, but of all these transactions except the retirement from the army and from his country of Lord Arthur Somerest, Newton alleges that he has a satisfactory explanation. The persons for whom he acted, as I understand his statement, did not occupy prominent positions. This does not appear to be very material to the issue, but it would be unfair to anticipate Newton's defense in any way, and probably he may have a stronger case than a reported inter-

view would lead any one to suppose. What is quite clear is that the authorities are now determined to go on, and that, sconer or later, the real culprits will stand revealed to the public eye, even if they manage to escape the hand of justice. This may, perhaps, allay the irritation which has been undoubtedly created by the belief that the Government was shielding the offenders on account of their rank or influence. It may, therefore, happen that the threatened attacks in Parliament may never be made.

London, December 16.-The magistrate at Bow-street Police Court has before him in secret to-day several crown lawyers, a number of the boys alleged to have been connected with the West End scandal and other witnesses. It is believed further warrants will be issued for the arrest of persons charged with complicity in the scandal.

NEWS BY THE AMERICAN

The P. M. steamer China arrived this morning with the American Mail of 20 Decembers, having made the run from Yokohama in 4 days, 20 hours and 22 sides) and from San Francisco in 19 days telegrams from our exchanges : -THE INFLUENZA EPIDEMIC.

Weshington, December 24,-George W. Wurts, Charge d'Affaires at the United States Legation at St. Petersburg, has sent the State Department an account of the prevalence of la grippe in Russia with intoresting comments. He states that about the middle of November public attention was called to the large number of persons who were falling ill with much the same symptoms—fever, severe pains in the head. back and limbs. For lack of a better name he states that this malady has been called influenza, but it shows signs of a typhoid character, though not of a malignant nature, and up to the date of writing. December 5th, no fatal case, had been renorted. The illness in most cases is very

lasts longer than two weeks. It leaves, however, all persons who have been touched by it in great debility and great depression of spirits. In fact the after effects are rather more unpleasant than the complaint itself. The cause of the epidemic has not been satisfactorily ex-

Most persons ascribe it to the warm weather of the past month, but that would not account for its appearance in Sib ris. where it burst out in several places, the weather there having been as cold as usual this season. Now that the winter seems to have fairly set in here, it is expected that the malady will disappear, but now nearly every one is affected. There is no exaggeration in putting the number of sick at fully two-thirds of the population of St. Petersburg. Certainly not a house has

escaped its visitation. The Emperor has been very ill with it for several days, and scarcely any member of the imperial family has been free from it. More than 40,000 cases have been medically authenticated, but they represent but a small portion of the sufferers.

Brussels. December 24.—Influenza is ra-\$500,000 00 pidly spreading. Thirty per cent. of the 24 871.69 are all che led. The disease has spread to all guests will number about 25. None officials are prostrated.
